

LiFe Batteries

Smarten your energy

The SUNNIVA LiFe battery consists of Lithium iron phosphate battery cells, provided by a reputable world class battery manufacturer. The battery modules are specially designed for Telecomms and PV storage application. Combined with most proven cell and BMS technology, the scalable battery modules ensure the maximum performance with highest safety standard delivering 3000+ cycles @ 80% DoD!

Energy Capacity	3KWh
Nominal voltage	48VDC
Constant Discharge	50A
Internal resistance	150 Ω
Cycle life	3000+
Design Life	20 years
